Know More About Us

Global Society spent over a decade investing in technology and building a deep network of liquidity partners, so we can consistently quote tight spreads in most market conditions.

We execute your trades quickly and accurately. We operate in a highly regulated environment, with strong oversight into trading practices and execution.

We do not pick and choose which trades to accept or adjust the price or the execution speed of your trade. We stand behind every trade. We are fully accountable for every execution – as a market maker, we don't outsource that responsibility to a third party. If you ever have any questions or concerns post-trade, we'll address them directly.
